Caution to Hunters.

As the hunting season opens next Tuesday a note of warning is in order. The hunting season is always accompanied with more or less accidents. Possibly not always in Powell county do serious accidents occur, but they do sometimes in the state each season, and this year it may turn to this county. At all times it is best to be careful with guns. Be sure there is nothing between you and the game when you shoot, and also be very careful to escape an accident from your own gun. Another thing many hunters are very thoughtless about is hunting on grounds of others without permission to do so. This is discourteous to land owners and is a violation of law besides. Most farmers do not care for neighbors hunting on their lands but always feel much better when asked for permission to do so. We trust that all our sporting readers will keep these thoughts in their minds, and that they will have a full and pleasant season in which to do their yearly hunting.

Hard Winter Predicted.

An exchange says that the Indians and the old-timers say that the coming winter will be one of the coldest on record. They point to the fact that the fur-bearing animals are growing thicker and longer coats than customary; that muskrats are building their houses larger and higher than is their custom in mild winters; that the bears are starting in to make their dens in the most protected places they can find, and the little chipmunks and gophers are also preparing for a siege. They say these signs never fail.

Whooping Cough

It is an old saying that whooping cough must run its course but the use of Dr. Bell's Pine-Tar-Honey has demonstrated beyond doubt that such is not the case. It can be cured by the use of this remedy.

The infant child of Wiley Salvers died here this city Friday and was taken to White Oak Estill county Sunday for interment.

Mrs. J. B. Eaton and daughter, Miss Ruth, have returned from an extended visit to relatives at Osborne, Kansas.

Wilton Watson, of Mt. Sterling, is in the city looking after the interest of the local telephone exchange.

The city schools were closed Monday and Tuesday on account of the election.

Miss Grace Shinfessel is visiting her sister, Mrs. S. T. Hall, at Stanton.

DEMOCRATIC VICTORY

The election Tuesday passed off very quietly at most places and upon the whole is very satisfactory to the Democrats. Langley won his race against Byrd by about 1500 majority. Powell gives Byrd a majority of 39. Clay City as usual is Democratic, the majority being 62. Kentucky Democrats elect nine of the eleven Congressmen, Langley in the Tenth and Caleb Powers in the Eleventh.

New York State goes Democratic by more than 100,000,000; New Jersey is Democratic by 10,000; Massachusetts elects Democratic Governor by 30,000; Connecticut is Democratic by 25,000; Ohio re-elects Judson Harmon Democrat by 40,000 majority. Indiana also goes Democratic and will have two Democratic United States Senators.

Illinois is also Democratic. The next Congress will be Democratic by a good majority.

Kentucky elected four of the seven Judges of the Court of Appeals and they are all Democrats.

In Tennessee where the whisky question was seriously involved in the issue, Hooper, Republican, was elected Governor of that State.

The Game Laws.

The following is the Kentucky game law in brief, and every hunter should cut it out, paste it in his hat or "learn it by heart". Kentucky (1894-1906) — Deer, September 1 to March 1. Rabbits (except with dogs or snares) November 15 to September 15. Squirrel (black, gray or fox) June 15 to September 15, seal November 15 to February 1. Quail, partridge, pheasant, November 15 to January 1. Pheasants (English, ringneck, Mongolian, Chinese) no open season. Wild turkey, September 1 to February 1. Doves, August 1 to February 1. Woodcock, June 20 to February 1. Wood duck, teal or other duck, goose, August 15 to April 1.

The Concrete buttments of the Lulbegrud bridge between this county and Clark have been finished and the steel work will soon be put up. The people of that section are very anxious to have the bridge completed before winter, and the indications now are that it will be completed.

The Rev. J. P. Doggett will preach at the Presbyterian church Sunday morning at the usual hour. The Rev. J. C. Hanley, president of Stanton College will serve the churches at Stanton and Beattyville giving each church half his time.

Dr. Martin reports the birth of a son, Nov. 2nd, to Mr. and Mrs. Joseph Cosby on Hardwick's creek, and a son to Mr. and Mrs. Ray McKinney, of near town on Nov. 6th.

This is the season of the year when fresh milk cows are always scarce and particularly is this the case this fall. They are certainly commanding good prices.

Good Rules for Employees.

Rule 1. Don't lie—it wastes my time and yours. I'm sure to catch you in the end, and that's the wrong end.

Rule 2. Watch your work, not the clock. A long day's work makes a long day short, and a day's short work makes my face long.

Rule 3. Give me more than I expect, and I'll pay you more than you expect. I can afford to increase your pay if you increase my profits.

Rule 4. You owe so much to yourself that you can't afford to owe anybody else. Keep out of debt or keep out of my shops.

Rule 5. Dishonesty is never an accident. Good men, liek good women, can't see temptation when they meet it.

Rule 6. Mind your own business, and in time you'll have a business of your own to mind.

Rule 7. Don't do anything here which hurts your self-respect. The employee who is willing to steal for me is capable of stealing from me.

Rule 8. It's none of my business what you do at night. But if dissipation affects what you do next day and you do half as much as I demand, you'll last half as long as you hoped.

Rule 9. Don't tell me what I'd like to hear, but what I ought to hear. I don't want a valet to my vanity, but I need lots of them for my dollars.

Rule 10. Don't kick if I kick—if you're worth while correct in you're worth while keeping. I don't waste time cutting specks out of rotten apples.—Exchange.

The Times considers it a misfortune that Byrd was not elected to Congress. Upon the whole, however, we are pleased with the results.

The Leopard and Its Spots.

We have often heard of the leopard changing its spots, but never knew exactly what was meant by it until we began reading the Clay City Times. One minute it is raging over the fact that Congressman Langley worked for, and voted to secure, appropriations for the Federal Building at Jackson, for improvements in the Kentucky and Big Sandy rivers, and for the many other things he has done for his constituents, saying that if all of the Congressmen were as extravagant as Langley, the country would soon be bankrupt. The spots are changed, and up goes a wail about broken promises concerning turnpikes. It is extravagance to build locks and dams and Federal Buildings in some other county, but it would have been all right to vote for an appropriation to build pikes in Powell county. That is consistency of the first grade, isn't it? People are not misled by such campaign talk.—Estill Herald.

The building of turnpikes as Langley promised us, is not an extravagance, the Times never expected Langley to get turnpikes for Powell or any other county of this district, neither did any other thinking man. The spending of thousands and hundreds of thousands of dollars for locks and dams and government buildings benefit only a few, it does not benefit one person for every twenty-five in the district. The spending of hundreds of dollars to collect a few cents in other states does not benefit a single person in this district. The Times does truly call all of this extravagance. It would not be extravagance to build turnpikes anywhere the people of the United States could travel them, yet they should be distributed evenly over all the country.

This argument is consistent all right as all our readers and the Herald well knows. The editor of the Times is better known to the readers of the Herald than is the editor of the Herald, and any argument to induce his readers to believe that the Times will "change its spots" or will use any inconsistent argument to further a just cause, will only make in our favor. The editor of the Times was born in Estill county and lived there for twenty-five years, and still has property and interests there. So really we would like to see Langley

build a few of his pikes over there, and will join the Herald if it wishes in getting him to build his first pike between Irvine and Clay City, beginning at the former place and coming this way.

Reciprocity.

The publisher of this paper has always been a supporter of the Democratic party both as editor of the Times and as an individual. The party in the county has especially been favored. But in nearly every instance the successful Democratic candidates have proven themselves ingrates. After the Times has truly supported the nominees and did what it could to help elect them, virtually tearing its shirt off for them and for this reason lose in every case some paying Republican subscribers, these so favored successful candidates will send to the city and pay more for their stationery and get no better work than the Times can print at home. With all the job printing in the county and at least every Democrat in its bounds supporting it, there is a scant living in publishing a Democratic paper in Powell. We are sometimes given a job where the pay is doubtful and at best cannot be paid for several months or possibly years, and where the other printer doesn't care to wait so long for his money.

After having said what we have said above we wish to say that there are some as loyal Democrats in Powell county as anywhere in the United States and they do not forget to always support their home paper. They have our best wishes and when they in the future may offer for office again, if for none other than personal reasons we will support them. They have always supported us when others wouldn't, then why not the Times support them? The newspaper business in Powell county must necessarily, to at least some degree, be narrowly brought down to "you scratch my back and I'll scratch your back." This paper has all along preached "home trade" and home support, but when we see those in whose interests these sermons are preached, send away for their printing we lose faith in their merits.

It may seem strange to some, but, after the Times supports a man for office and puts in cash to help elect him, votes for him, loses lots of money in his behalf, and after he is elected, that man send his cash away for printing that we can do, and that we must do to make a living, we can't help feel like we have been mistreated by an unworthy man and that man from this on need not expect our support in any contest in the Democratic party. If he gets the nomination then of course its different.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Editor's Chief Delights.

There are some people, strange as it may seem, who imagine that one of the chief delights of a newspaper man is to have something sensational happen in order that he may gratify a morbid desire to parade the shortcomings of humanity in the columns of his paper. It is hardly necessary to reply to such accusations. Newspaper men are like other men. They are of the same flesh and blood and were reared amidst similar environments. Did

you ever see an item in a newspaper encouraging people to indulge in lawless, immoral or corrupt practices? Did you ever see an article in a newspaper advising young boys or young girls to heed not the teaching of their parents and to follow their own sweet wills and desires? Did you ever see an article in a newspaper telling young men and women that their parents were old fogies, behind the times, and out of date, and too slow for the rising generation? No indeed. On the other hand, you have seen columns of warning to fathers and mothers heeding not, and you have seen warnings which adults have heeded not. Were newspaper men the monsters some distorted minds picture them to be, they certainly would not be displaying the danger signal in their columns at all times. There would be no warnings published admonishing people to keep out of mischief. Rather would they encourage wrong-doing in order to gratify the desire to expose the offenders. The truth is, the newspapers have not been severe enough in their exposures. They are in every community numerous individuals who carry out their liasons under cover of darkness who are free to condemn the papers for giving publicity to crimes against society and the laws of the state. These are the fellows who cry out against publicity, not that they are against it as a public policy so much as they are against it through fear that their time may come sooner or later. So all this paper has to say concerning its policy on the publicity question, declares the La Grange (Ind.) Call, is, if you don't want to get into the newspapers as a horrible example, be good.

Records of the Port of New York since the beginning of the year show that the nation will receive 1,000,000 immigrants before 1911 comes.

Happy Farmer Boy.

I'd like to be a boy again with out a woe or care, with freckles scattered on my face and hair, seed in my hair. I'd like to rise at 4 o'clock and do a hundred chores, saw the wood and feed the hogs and luck the stable doors and herd the hens and watch the bees and take the milk to drink and teach the turkeys how to swim so that they wouldn't sink and milk a hundred cows and bring the wood to burn and stand all day and churn and churn, and wear my brother's cast off clothes and walk four miles to school and get a licking every day for breaking some old rule, and then get home again at night and do the chores some more, and milk the cows and feed the hogs and curry mules galore, and then crawl wearily up stairs to seek my little bed and hear dad say, "That worthless boy, he isn't worth his bread." I'd like to be a boy again—a boy has so much fun. His life is just a round of mirth from rise to set of sun. I guess there's nothing pleasanter than closing stable doors and herding hens and chasing bees and doing evening chores.—Exchange.

The Canadian authorities have been so much disturbed over the report that 15,000 American farmers have left the Canadian northwest that they have undertaken an inquiry of their own. The result of that is the admission that 261 farmers and their families have returned to the United States. During the same time they claim that over 50,000 settlers have entered Canada from this country. Perhaps it is up to the United States to investigate these last figures.

It makes no difference which side of street you may take, you will find that your creditors also prefer that side.

There was a time when people had no thermometers. When two or three got together and

decided that the weather was hot or cold they settled it.

Nature turns over a new leaf in the spring, but in the fall she always paints things red.

It pays to be honest whether you advertise the fact or not.
